How to Redirect to Booking

Following are the query string keys that you need append with the base URL for booking through website

bk

wuid

ck

cid

t

fpaffiliate

Description of Keys:-

bk=FPWB

This is indication that user is redirecting from fpwebbox to website for booking, this is the master value as we proceed only if found this particular key – value pair in deeplink.

wuid=#####-####-####-####-#####

The user WUID assigned from Fpwebbox would be used for authentication.

ck=#####-####-####-####-#####

This is the CntKey (unique contract key), provided along the listing.

cid=#

The ID of the selected contract must be supplied against this key.

t=f

This key indicates the type of booking, (where f = flight booking)

fpaffiliate

You must set your affiliate code against this key assigned by Fpwebbox.

Deeplink URL Help

Redirecting

Once you have collected all the required values (in query string), then the deep link would appear like:

Wuid - XXXXXXXX-XXXX-XXXX-XXXX-XXXXXXXXXXXXX
ck - XXXXXXXX-XXXX-XXXX-XXXX-XXXXXXXXXXXXX
cid - 0
t - f
bk - FPWB

fpaffiliate- your affiliate code like (test_userfpwebbox)

Append all the key-value pairs in deep link with affiliate code.

https://api-dev.fareportallabs.com/air/deeplink.aspx?bk=FPWB&wuid=XXXXXXXX-XXXX-XXXX-XXXX-XXXXXXXXXXXXX&ck=XXXXXXXX-XXXX-XXXX-XXXX-XXXXXXXXXXXXX&cid=0&t=f&fpaffiliate=test_userFPwebBox

After appending the query string in URL and redirecting will give you the booking page.

One thing to ensure is that each value in its respective keys will be checked for proper format before processing your request.
